

Counter-Depth Bottom-Freezer Refrigerators

Architect® Series II

KBRS20ET
KBLS20ET

Two great design options make this refrigerator an exceptional choice. The refrigerator is **24 inches deep** – leaving the cabinet flush to countertops and cabinets. And, having the freezer on the bottom makes it easy to access your fresh food. Choose either a right-hand or left-hand door swing.

*Stainless steel only.

FreshChill™ Temperature Management System

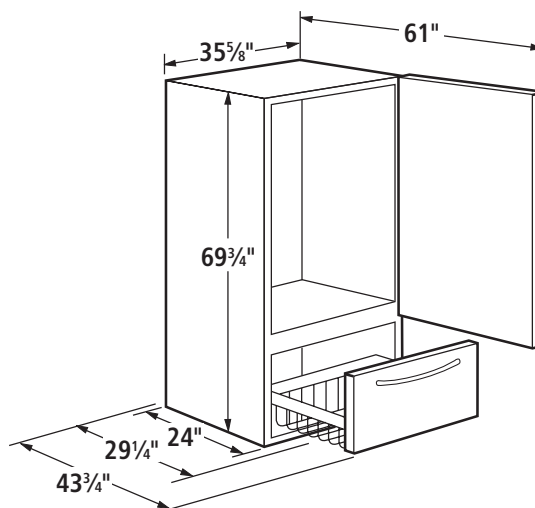

A system that features a thermostat in the refrigerator to help regulate temperatures and maintain freshness, while an evaporator fan circulates air throughout the refrigerator and freezer.

Pull-Out Freezer Baskets

Two wire baskets glide out when you pull the door open. The baskets are tiered, so you can easily view and organize the freezer – keeping the frequently accessed items on top to reduce bending.

PRODUCT DIMENSIONS

Dimensions are for planning purposes only. For complete details, see Installation Instructions packed with product. Specifications subject to change without notice.
